Better commence to think of the coal bin. The day of the ice man is almost as a tale that is told.

Falls City has grown chautauqua hungry again and will probably be found wandering up towards Salem again as she has for many years past.

Stocks and bonds are going down but corn and hogs are going up Wall street isn't the whole cheese any longer and the west seems amply able to care for itself.

Those who want to start The Tribune at a dollar a year will have to get busy. Those who want to pay in advance at the above rate will have to get in by January 1st.

Pawnee City has three papers each one of which carries more advertising than do the three Falls City papers combined. Falls City has many enterprising, wide awake business men, — nit.

By common consent Judge Raper and L. M. Pemberton seem the choice for district judges. Both these gentlemen are eminently qualified and deserving and both will be chosen at the ensuing primary.

The Salem chautauqua has learned the value of newspaper advertising from experience. A detailed program of the excellent attractions offered by this institution will be found on another page of this paper.

The Bank that Wants Your Business!

Is the one that comes right out and says so. This Bank wants your business and that is what we are trying to impress upon you.

We have a long list of well satisfied customers, but we would like to make the list much longer and if you are not a patron of the

FALLS CITY STATE BANK

Please consider this a personal invitation to make this "your bank" in the future. The officials of this bank have the happy faculty of making their patrons "feel at home" when transacting business with them.

Falls City has no more worthy institution than the business college conducted by our worthy mayor. Many of the neighboring cities have endeavored to take this school away from us and at one time it seemed that Kansas City was going to succeed in such an effort. However, the business element of Falls City prevailed on Prof. Barrett to continue his school here and the next term will soon open with a larger attendance than ever before.

Many a man is today working for ordinary wages that has sufficient intelligence to command a good salary had he received a business education. Many Falls City young men are today commanding good salaries who would have been working for ordinary wages had it not been for a good business education. Take it either way and the proof is overwhelming that a business education is the best investment a parents can make. The advertisement of the Falls City business college appears on another page of this paper and if the testimonials there printed do not convince you the subject may as well be dropped.

In these days when the champions of several candidates for supreme judge are promising so much it might be well for the voters to stop and think it over. A judge who promises more than exact justice between corporations and the people is unworthy the confidence of any party. A judge cannot be just and generous. A judge has nothing of his own to give. If he is the friend of one litigant he is unfriendly to the other. If he gives generously to one party he must take unjustly from the other. It may suit the purposes of Mr. Rose, who wants to succeed Harry Lindsay as clerk of the supreme court, to announce that Judge Reese will be friendly to the people, but the average citizen who knows of the fairness displayed by Judge Sedgwick during his first term will doubtless feel inclined to support him for a second term.

The public schools of Falls City will open Monday, Sept. 2. High school students must register on Friday, August 30, from 8 a. m. to 6 p. m. There will be a meeting for all the teachers on Saturday, August 31, at 9 a. m., at the high school building.
